1) Byrne Dairy, 33 Campion Road – Sewer Plans

Alan Swierczek, Engineer, representing the Village of New Hartford presented plans from Plumley Engineering for stormwater pollution prevention plan (SWPPP) for Byrne Dairy.

Superintendent Timothy Hughes stated he has been in contact with Plumley Engineering and will continue to inspect the project until it is completed. The new sewer will tap into the old lateral. The rainfall has increased from 5'4" to 5'8". The plans are in compliance with NYS DEC and Village requirements.

Discussion was held on changes to the original plans for the building:

- . The State has required Byrne Dairy to put sidewalks on both sides of the building.
- . Mayor Ryan stated that the State has determined after careful consideration that they will not require Byrne Dairy to put in the turning lane that they originally requested. If it is necessary it will be done in the future.
